

## **Heidi Heath BSc(Hons) RVN MBVNA**

Before studying Veterinary Nursing Science I travelled to Ghana in West Africa where I worked as a volunteer in an animal hospital assisting the veterinary surgeons with cases, surgeries and general treatment which I immensely enjoyed. I then attended The University of The West of England where I gained a First Class Honours degree in Veterinary Nursing Science and alongside this passed my RCVS Veterinary Nursing examinations with credit. I then spent time working as a nurse in first-opinion small animal practice in Hampshire where I took a more active role in surgery and nursing clinics. During my time in practice I applied to Vet School and successfully obtained a place at The Royal Veterinary College in London where I have now been studying for 4 years towards my Veterinary Medicine degree. I have developed a keen interest in Canine and Feline Endocrinology and Cardiology.
