

Kirsty Peake DipCAPBT CABP MPSA

Kirsty has a lifetime of experience with dogs, cats and horses and has bred and shown Lakeland Terriers successfully. During the 70's she lived and worked in Africa and the Middle East where she became involved with 'village dogs'. Her fascination for how dogs behave began here, and introduced her to wolves. She studied their relationship with the modern dog and how they evolved. Kirsty is a COAPE Association Behaviour Practitioner, one of the first in the country to achieve this. She is also currently Chairperson of the COAPE Association of Pet Behaviourists and Trainers and is a COAPE Tutor. She runs a busy pet behaviour and training practice in the South West and takes referrals from approximately 20 veterinary practices.
